

Technical Requirement Document
CCC Version 2.0

Objective:

The objective of this application is to provide users with a comprehensive platform to explore and analyze organizations across various sectors, including diverse-owned businesses, higher education institutions, non-profits, general businesses, and healthcare organizations. The platform empowers users to make informed decisions by offering insights into Diversity, Equity, and Inclusion (DEI) and Environmental, Social, and Governance (ESG) metrics, political contributions, investments, and organizational impact.

Additionally, the application facilitates professional growth and community engagement through job opportunities, community participation, event management, and real-time chat features.

Users can connect with like-minded individuals, stay updated on organizational activities, and manage their preferences with privacy controls, support access, and notification settings—all within a secure and user-centric environment.

Platform

User (Mobile App)

Business (Mobile App)

Admin (Web Panel)

Features and Functionality

User Interface

❖ Pre-Login How to Use Screen

- The system shall display a “How to Use” informational screen to users before Login or Sign-Up. This screen will briefly explain the app’s core features and guide new users on how the platform works. Users shall have the option to Skip or proceed to Login/Sign-Up after viewing the information

❖ Authentication

➤ Sign Up Flow

- ✓ User opens app Clicks Sign Up
- ✓ Input: Email, Password Submit
- ✓ System validates
 - Email format
 - Password rules
 - Email uniqueness
- ✓ Success Navigate to Profile Creation
- ✓ Failure Show error message

➤ User Stories

- ✓ As a new user, I want to create an account using email and password so that I can access the app.
- ✓
 - As a new user, I want to get error messages for invalid email format or weak password so that I can correct inputs before submitting.
- ✓
 - As a new user, I want to see confirmation that my account is created so that I know I can proceed to profile creation.

➤ Login Flow

- ✓ User opens app Clicks Login
- ✓ Input: Email, Password Submit
- ✓ System checks credentials
 - Valid Navigate to Home / Dashboard
 - Invalid Show error Retry option
 - Social Login (google / Apple)

Technical Requirement Document

CCC Version 2.0

➤ User Stories

- ✓ As a registered user, I want to login with email & password so that I can access my account.
- ✓ As a user, I want to get an error for wrong credentials so that I can retry or reset my password.

➤ Guest Login

- ✓ Allows users to enter the app without registration.
- ✓ Guest users can access Home screen only.

➤ Features

- ✓ Temporary Home Access: Guest sees only Home content
- ✓ Restricted Features: Any interactive or personal action requires full account

➤ User Stories

- ✓ As a new user, I want to enter the app as a guest so that I can browse Home content before registering.
- ✓ As a guest user, I want to be restricted from using interactive features so that I must register for full access.

➤ Forgot Password Flow

- ✓ User clicks Forgot Password
- ✓ Input: Email Submit
- ✓ System sends OTP / Reset link to email
- ✓ User enters OTP / clicks link Enter new password
- ✓ System validates password Success Confirmation

➤ User Stories

- ✓ As a registered user, I want to reset my password via email OTP or link so that I can regain access if I forget my password.
- ✓ As a user, I want my new password to meet security rules (minimum length, number, uppercase) so that my account stays secure.

Technical Requirement Document

CCC Version 2.0

❖ Promo Code

➤ User Role

- ✓ The system shall display an optional Promo Code field during Sign-Up.
- ✓ Users may enter a valid promo code or skip the field.
- ✓ If a valid promo code is entered:
 - The system shall record the code against that user registration.
- ✓ If no code is entered:
 - Registration shall proceed normally.
- ✓ Promo code entry shall not:
 - Provide discounts
 - Change subscription
 - Unlock features

➤ User Stories

- ✓ As a User, I want to enter a promo code during sign-up (optional), So that my registration can be associated with a specific influencer.
- ✓ As a User, I want to complete registration without entering a promo code, so that I can proceed normally without any restriction.
- ✓ As a User, I want the promo code to only track my sign-up, so that it does not affect my pricing or account features.

❖ Profile Creation Flow

- User navigates to Profile Creation
 - ✓ User fills all required fields:
 - Full Name, Gender, DOB, Country US Only, State, City, Email
 - ✓ Fields: About Yourself, Profession, Education Level, Phone Number (Optional)
 - ✓ Toggle switches: Public / Private, Allow Location
 - ✓ Click Save System validates Stores in DB
 - ✓ Success Navigate to Home / Dashboard

Technical Requirement Document

CCC Version 2.0

➤ User Stories

- ✓ As a user, I want to enter my full name so that my profile is complete.
- ✓ As a user, I want to select my gender (Male,Female,Transgender Male, Transgender Female,Non-binary,Genderqueer,Genderfluid,Two-Spirit,Agender,Prefer not to say) so that my profile is accurate.
- ✓ As a user, I want to enter my date of birth so that age verification can be done (15+).
- ✓ As a user, I want to write a short bio so that others know more about me.
- ✓ As a user, I want to enter my profession so that my profile is informative.
- ✓ As a user, I want to select my education level from a dropdown so that my profile is complete.
- ✓ As a user, I want to select my country US Only so that location-specific features work.
- ✓ As a user, I want to select my state (dependent on country) so that location data is accurate.
- ✓ As a user, I want to select my city (dependent on state) so that location data is accurate.
- ✓ As a user, I want my email verified after entering so that account authenticity is ensured.
- ✓ As a user, I want to add my phone (Optional) number so that I can receive notifications or recovery options.
- ✓ As a user, I want to switch between Public / Private profile so that I control visibility.
- ✓ As a user, I want to allow or deny location access so that I control app permissions.
- ✓ As a user, I want to save my profile after filling details so that information is stored in my account.
- ✓ As a user, I want to update my profile anytime so that my details are always current.
- ✓ As a user, I want to be notified if required fields are missing or incorrect so that I can complete my profile correctly.
- ✓ As a user, I want to upload a profile picture so that my profile looks personalized.
- ✓ As a user, I want to see a progress indicator showing profile completion so that I know which fields are remaining.

❖ Profile Completion Bar

➤ Displayed on the home screen.

- ✓ Updates in real-time as the user fills or updates profile fields.
- ✓ Calculate profile completion %
- ✓ Display progress bar

➤ Preferences:

- ✓ Users can set their preferences, which will define how suggested friends are matched.
- ✓ Profile completion will only count as complete once the user sets at least some preferences.
- ✓ Preferences are stored in the backend in a dedicated Preferences Table.
- ✓ Suggested friends and matching % will be calculated based on the preferences set by the user.

Technical Requirement Document

CCC Version 2.0

➤ Preferences Categories:

- ✓ Social & Environmental
- ✓ Rights & Advocacy
- ✓ Cultural & Demographic
- ✓ Lifestyle
- ✓ Business
- ✓ Political
- ✓ Gun Control

➤ Completion Calculation:

- ✓ Profile completion = base 93% after filling profile fields + setting preferences
- ✓ Remaining 7% depending on calculation) = dependent fields such as:
 - Fraternities / Groups
 - "Select Type" options (user-selected optional preferences)

➤ User Stories

- ✓ As a user, I want to see a profile completion bar on my home screen so that I know how complete my profile is.
- ✓ As a user, I want to set my preferences so that suggested friends and Business are relevant to me.
- ✓ As a user, I want the profile completion percentage to update in real-time as I fill or update my profile so that I always know my progress.

❖ Search module

➤ Search Across the App

- ✓ Users can search businesses, jobs, education, health care, and friends.
- ✓ Filters help refine search results.
- ✓ Search results show relevant cards / profiles based on query and filters.

➤ Search Input

- ✓ Users can type keywords in the search bar.
- ✓ Search query is matched against:
 - Name (business / job / user / education)
 - Category (business type, job type, education specialty)
 - Title (job title, business title)
 - Location (city, state, country US Only)
 - Keyword (any relevant tag or description text)

Technical Requirement Document

CCC Version 2.0

➤ **Filters**

- ✓ Users can apply filters to narrow results:
 - Category / Type (e.g., Diverse Business, Health Care, Education, Corporation, Job)
 - Location (City / State / Country US Only)
 - Job Type (Full-time / Part-time / Contract)
 - Match % (for Suggested Friends or preference-based businesses)

➤ **User Stories**

- ✓ As a user I want to search across the app using keywords So that I can find relevant businesses, jobs, education, health care, or friends
- ✓ As a user I want to apply filters like category, location, title, or keyword So that I can narrow down search results
- ✓ As a user I want search results to show name, category, location, and match % So that I can quickly identify relevant results
- ✓ As a user I want to click on any result to view full profile So that I can see detailed information before acting

❖ **Suggested Friends Matching**

➤ **Suggested Friends:**

- ✓ Match % is calculated between user profile & preferences.
- ✓ Only users with $\geq 30\%$ match are displayed.
- ✓ Matched preferences count (how many preferences match)
- ✓ Profile picture, name, match %

➤ **Suggested Friend Actions:**

- ✓ Follow / Unfollow: Send or remove follow request.
- ✓ View Profile: Open full profile including preferences and details.
- ✓ Following / Followers: View lists of users the suggested friend is following or who follow them.
- ✓ Chat: Send chat Request with the suggested friend.

Technical Requirement Document

CCC Version 2.0

➤ User Stories

- ✓ As a user, I want suggested friends to appear on my home screen based on my preferences and profile match so that I can connect with similar users.
- ✓ As a user, I want suggested friends to only appear if they have at least 30% profile match with me so that recommendations are meaningful.
- ✓ As a user, I want to click on suggested friends to view their profile so that I can decide to Follow with them.
- ✓ As a user I want to view a suggested friend's profile So that I can see details, preferences, following/followers, and match info
- ✓ As a user I want to Follow or Unfollow suggested friends So that I can manage my connections
- ✓ As a user I want to view following/followers of a suggested friend So that I can explore mutual connections
- ✓ As a user I want to chat with a suggested friend So that I can communicate directly with them
- ✓ As a user, I want the system to prioritize suggested friends with the highest match percentage at the top so that I see the most relevant suggestions first.

❖ My News Section

➤ News Categories

- ✓ The system will show news related to:
 - Diversity
 - Education
 - Minority
 - Healthcare
- ✓ Only news from these categories will be displayed in the app.

➤ News Source

- ✓ News content is fetched from third-party news APIs.
- ✓ The app does not create or edit news content.
- ✓ News is refreshed automatically based on API updates.

Technical Requirement Document

CCC Version 2.0

➤ Share News

- ✓ Internal Share
 - Share news within the app (friends).
- ✓ External Share
 - Share via social apps (WhatsApp, Facebook, etc.).

➤ User Stories

- ✓ As a user want to view news from trusted third-party sources So that I can stay informed with relevant updates
- ✓ As a user I want to see only diversity, education, minority, and healthcare news So that the content matches the purpose of the app
- ✓ As a user I want to see a list of latest news articles So that I can quickly browse multiple news items
- ✓ As a user I want to open a news article So that I can read the full details
- ✓ As a user I want to share a news article So that I can inform others about important updates
- ✓ As a user I want to share news internally within the app So that other users can view it
- ✓ As a user I want to share news externally via social apps So that I can share information outside the app

❖ Diverse Owned Business

➤ Preference & Location-Based Display:

- ✓ Only businesses that match user preferences AND are near the user's location are shown.

➤ Business Profile View:

- ✓ Clicking a business shows profile details:
 - About Diversity (Owned by)
 - Category
 - Preferences Match (which user preferences match)
 - Match % (percentage of preferences matched)
 - Mission Statement
 - Affiliated/Related Organizations
- Location (address + map pin)

➤ Business Verification (Blue Tick):

- ✓ Businesses with a blue tick are verified businesses registered directly within the app.
- ✓ Businesses without a blue tick are fetched from third-party sources (e.g., Yelp).

Technical Requirement Document

CCC Version 2.0

➤ User Stories

- ✓ As a user I want to see diverse businesses on my home screen based on my preferences and location So that I can discover relevant businesses easily
- ✓ As a user I want to click a business card to view its profile So that I can see About Diversity, Category, Preference Match %, Mission, and affiliated organizations
- ✓ As a user I want to see how far the business is from me So that I can decide if it's convenient to support

❖ Corporations / businesses

➤ Preference & Location-Based Display:

- ✓ This displays corporations and general businesses that are not categorized as diverse-owned.
 - Businesses are shown on the Home screen.
 - Results are based on user location and general interests/preferences (not diversity).
 - Users can only view business profiles.

➤ Business Profile View:

- ✓ Clicking a business shows profile details:
 - About Diversity (Owned by)
 - Category
 - Preferences Match (which user preferences match)
 - Match % (percentage of preferences matched)
 - Mission Statement
 - Affiliated/Related Organizations
 - Location (address + map pin)
 - Corporations / businesses are shown based on user location.
 - Distance from the user is visible on business cards.

➤ User Stories

- ✓ As a user I want to see corporations and general businesses near my location So that I can discover businesses around me
- ✓ As a user I want to open a business profile So that I can see business details, mission, and location
- ✓ As a user I want to see how far the business is from me So that I can decide if it is convenient

Technical Requirement Document

CCC Version 2.0

➤ Business Verification (Blue Tick):

- ✓ Businesses with a blue tick are verified businesses registered directly within the app.
- ✓ Businesses without a blue tick are fetched from third-party sources (e.g., Yelp).

❖ Health Care Business

➤ Preference & Location-Based Display

- ✓ This module displays health care businesses on the Home screen that are registered directly via the app.
 - Only app-registered health care providers are shown.
 - Users can view business profiles and location.
 - No third-party sources are included.
 - Only businesses that match user preferences AND are near the user's location are shown.
 - Distance from the user is displayed on business cards.
 - Only businesses that match user preferences AND are near the user's location are shown.
 - Distance from the user is displayed on business cards.

➤ Business Profile View

- ✓ Clicking a business card shows full details:
 - Location (address + map + distance)
 - Phone Number (tap-to-call)
 - Health Preferences
 - Rights, Equality & Advocacy Preferences
 - Lifestyle & Business Preferences
 - Political Preferences
 - Gun Control Preferences
 - Co-Ed info
 - Preference Match & Match %
 - Health Services offered

➤ User Stories

- ✓ As a user I want to view a health care business profile So that I can see location, phone, health preferences, and other detailed info
- ✓ As a user I want to see which of my preferences match the business So that I can quickly decide if the business is relevant to me
- ✓ As a user I want to see services offered and co-ed info So that I can understand if the business suits my need

Technical Requirement Document

CCC Version 2.0

❖ Education Businesses

➤ Preference & Location-Based Display

- ✓ This module displays education businesses on the Home screen:
 - App-registered businesses blue tick verified
 - Third-party sourced businesses no blue tick
 - Users can view business profiles with basic info and location.
 - Businesses displayed based on user location.
 - Distance from user is shown on business cards.

➤ Business Profile View

- ✓ Clicking a business card shows:
 - Name
 - Address
 - State
 - City
 - Zip Code
 - Contact Number
 - Location Map Pin

➤ Business Verification (Blue Tick)

- ✓ Blue tick: App-registered and verified businesses
- ✓ No blue tick: Third-party sourced businesses

➤ User Stories

- ✓ As a user I want to see education businesses near me from app and third-party sources So that I can discover local educational providers

- ✓ As a user I want to see which businesses are verified (blue tick) So that I know which ones are app-registered
- ✓ As a user I want to see distance from me on business cards So that I can decide which education businesses are convenient

Technical Requirement Document

CCC Version 2.0

❖ Favorite Businesses Tab

➤ Favorite View

- ✓ Users can view all businesses they marked as favorite.
- ✓ Only app-registered businesses can be favorited.
- ✓ Clicking a business opens full business profile.
- ✓ Users can unfavorite a business from this tab.

➤ User Stories

- ✓ As a user I want to mark app-registered businesses as favorites So that I can quickly access them later
- ✓ As a user I want a Favorite Businesses tab So that I can see all businesses I added as favorite in one place
- ✓ As a user I want to click a business in Favorite tab So that I can view its full profile
- ✓ As a user I want to remove a business from favorites So that my Favorite list is always up-to-date

❖ Job Finder

➤ Module Overview

- ✓ The Job Finder module allows users to:
 - Browse and search available jobs.
 - View detailed job profiles with description, requirements, and company info.
 - Apply for jobs directly through the app.
 - After applying, jobs move to Applied Jobs section with status tracking.
 - Users can mark jobs as favorites.

➤ Job Listings

- ✓ Users click on Job Finder from Home
- ✓ System displays all available jobs in list or card format.

Technical Requirement Document

CCC Version 2.0

➤ Job Profile View

✓ Clicking a job opens the full job profile, organized in tabs:

✓ About Tab

- Job Status: Active / Non-Active
- Mission / Company Vision
- Industry
- Head Office
- Job Type / Specialization
- Website

✓ Description Tab

- Job Description
- Requirements Overview
- Location (with map pin)

✓ Requirements Tab

- Position / Designation
- Qualification
- Experience
- Job Type (Full-time / Part-time / Contract)
- Facilities / Perks
- Other relevant requirements

➤ Apply Job Form

✓ Clicking Apply Job opens application form with fields:

- Full Name
- Email Address
- Phone Number
- Upload Cover Letter (optional)
- Upload CV / Resume (mandatory)
- Users submit application system stores data in Job Applications Table.
- Job moves to Applied Jobs section.
- Default Application Status = Pending
- User can see favorite / unfavorite option for the job

Technical Requirement Document

CCC Version 2.0

➤ **Applied Jobs Section**

- ✓ Shows all jobs user has applied to (only app-registered).
- ✓ Application Status: Pending / Hired / Not Selected
- ✓ Favorite indicator
- ✓ Clicking job opens job profile (same tabs as above).

➤ **User Stories**

- ✓ As a user I want to browse all jobs in Job Finder So that I can discover opportunities available near me
- ✓ As a user I want to click a job to view full profile So that I can see About, Description, and Requirements
- ✓ As a user I want to see job status, company mission, industry, head office, specialization, and website So that I understand the role and organization
- ✓ As a user I want to see job description, requirements, and location with map So that I know if the job is suitable for me
- ✓ As a user I want to fill an application form with my details and CV/cover letter So that I can apply directly through the app
- ✓ As a user I want to apply to a job So that it moves to my Applied Jobs section
- ✓ As a user I want to see my application status (Pending / Hired / Not Selected) So that I know the current stage of my application
- ✓ As a user I want to mark jobs as favorites So that I can easily revisit them later
- ✓ As a user I want to click an applied job to view full profile So that I can review job info even after applying

❖ **Community**

➤ **Community module**

- ✓ Create, edit, delete, and manage communities.
- ✓ Join communities created by others (approval-based communities).

Technical Requirement Document

CCC Version 2.0

- ✓ Manage posts inside communities with comments, reactions, likes, and shares.
- ✓ Create and manage events inside communities.
- ✓ Favorite events and track my created events.

➤ **Community Management**

- ✓ Fields:
 - Community Name
 - Picture / Logo
 - Member Limit
 - Privacy: Public / Private
 - Rules & Guidelines
 - Community Preferences (multi-select):
 - Social & Environmental
 - Rights, Equality & Advocacy
 - Cultural & Demographic
 - Lifestyle
 - Business
 - Political & Gun Control
 - Notifications sent to user's followers on community creation.
 - Creator becomes Community Admin.
- ✓ Edit / Delete Community
 - Admin can edit or delete community.
- ✓ Join Community
 - Public / Private Join Request
 - Approved users added to Joined Members
 - Notifications sent to admin for pending requests

➤ **Community Lists**

- ✓ My Communities: Created by user
- ✓ Joined Communities: Joined by user
- ✓ Discover Communities: Available to join

➤ **Private Community**

- ✓ The system shall restrict Private Community access to invited users only.
- ✓ Only the Community Owner shall have permission to send invitations.
- ✓ Users must accept the invitation to gain access.

Technical Requirement Document

CCC Version 2.0

- ✓ Non-invited users shall not be able to view or access private community content.

➤ **Community Posts**

- ✓ Users can create posts with text, images, videos,
- ✓ Actions: Edit / Delete (own posts), Like / React / Comment / Reply / Share
- ✓ App-wide posts can be shared / edited / deleted

➤ **Community Events**

- ✓ Create Event
 - Event Name
 - Picture
 - Description / About
 - Location
 - Event Charges
 - Date & Time
 - Privacy: Public / Private
 - URL (optional)
- ✓ Event visible only to community members.
- ✓ Notifications sent to community members.

➤ **Event Participation**

- ✓ Users can: Going / Maybe
- ✓ System tracks number of attendees

➤ **Event Favorites**

- ✓ Users can favorite events added to Favorite Events tab
- ✓ Only events inside community's user belongs to

➤ **My Events**

- ✓ Events created by the user appear in My Events tab
- ✓ User can edit / delete these events
- ✓ Events that the user is attending / going to are marked as "Participated"

➤ **User Stories**

- ✓ As a user, I want to create a community with name, picture, rules, member limit, and preferences
- ✓ As a user, I want to edit or delete my community
- ✓ As a user, I want notifications sent to my followers when I create a community
- ✓ As a user, I want to request to join communities and wait for admin approval

Technical Requirement Document

CCC Version 2.0

- ✓ As a user, I want to see communities I created (My Communities) and joined (Joined Communities)
- ✓ As a Community Owner, I want to send invitations to specific users, So that only selected members can join my private community.
- ✓ As an Invited User, I want to receive and accept a private community invitation, So that I can access the community content.

- ✓ As a user, I want to create posts with text, images, and videos in a community
- ✓ As a user, I want to like, react, comment, reply, and share posts
- ✓ As a user, I want to edit or delete my posts

- ✓ As a user, I want to create events inside a community
- ✓ As a user, I want to see event details: name, picture, description, location, charges, date & time, privacy, URL
- ✓ As a user, I want to Going / Maybe
- ✓ As a user, I want to favorite events inside communities
- ✓ As a user, I want My Events tab to show events I created
- ✓ As a user, I want to edit or delete my created events
- ✓ As a user, I want to see which events I am participating in so that I can easily track my attendance.

❖ Chat Module

➤ Chat Initiation Flow

- ✓ User opens another user's profile.
- ✓ User clicks Send Message.
- ✓ A Chat Request is sent to the receiver.
- ✓ Receiver sees the request with two options:
 - **Accept**
 - **Reject**
- ✓ If Accepted:
 - Chat conversation starts.
 - Both users can send messages.
- ✓ If Rejected / Not Accepted:
 - Chat does not start.
 - Sender cannot send messages.

➤ Chat Features (After Acceptance)

Technical Requirement Document

CCC Version 2.0

- ✓ Users can send:
 - Text messages
 - Image messages (pictures only) only 10 pictures

➤ User Actions in Chat

- ✓ User can report the other user from the chat screen.
- ✓ User can block the other user.
- ✓ Delete Chat

➤ User Stories

- ✓ As a user, I want to send a chat request to another user, so that I can start a conversation after their approval.
- ✓ As a user, I want to receive chat requests, so that I can decide whether to accept or reject the conversation.
- ✓ As a user, I want to accept a chat request, so that I can start chatting with the sender.
- ✓ As a user, I want to send text messages in an active chat, so that I can communicate with the other user.
- ✓ As a user, I want to send image messages in chat, so that I can share 10 only pictures.
- ✓ As a user, I want to view previous chat messages, so that I can see past conversations.
- ✓ As a user, I want to block another user from chat, so that I can stop communication.
- ✓ As a user, I want to report another user, so that inappropriate behavior can be reviewed by admin.

❖ AI Chatbot

➤ Overview

- ✓ Chatbot is an automated assistant for users who want guidance about the app and business growth.
- ✓ Chatbot provides information about:
 - How to use the app
 - Discovering new business opportunities
 - Growing your business
 - Exploring best practices within the app

➤ Flow

- ✓ User opens a registered business profile.
- ✓ User clicks Chatbot
- ✓ Chat window opens instantly.
- ✓ User types questions about the app or business guidance.

Technical Requirement Document

CCC Version 2.0

- ✓ Chatbot responds automatically with tips, instructions, and best practices.

➤ Features

- ✓ Text messages only.
- ✓ Provides app guidance and business growth tips.
- ✓ Chat history saved per user.
- ✓ Report Chat bots

➤ User Story

- ✓ As a user, I want to chat with the business chatbot so that I can learn how to discover, grow, and explore my business using the app.

❖ Geofencing Feature

➤ Overview

- ✓ Geofencing allows the app to track user location and send notifications based on proximity to selected places (restaurants, cafes, events, etc.).
- ✓ User can turn Geofencing ON / OFF via a toggle.
- ✓ When ON, nearby places matching search criteria trigger notifications.

➤ Features

- ✓ Toggle switch: ON / OFF
- ✓ Location-based search: Only returns nearby results
- ✓ Push notifications: Triggered when user enters geofenced area
- ✓ Applicable for: Restaurants, cafes, events, other points of interest

➤ User Stories

- ✓ As a user, I want to turn Geofencing ON or OFF so that I can control notifications.
- ✓ As a user, I want to search for restaurants, cafes, or events while Geofencing is ON so that I get notified when I am near them.
- ✓ As a user, I want to receive notifications for nearby places that match my search so that I don't miss relevant locations.
- ✓ As a user, I want notifications to stop when I turn Geofencing OFF so that I have full control over alerts.

❖ Ads Module – Home Screen

➤ Overview

- ✓ Ads module displays banner advertisements on the Home screen.
- ✓ Ads can be promotional content, business offers, or app-related banners.

Technical Requirement Document

CCC Version 2.0

- ✓ Only app-approved businesses or campaigns can appear.

➤ Features

- ✓ Banner format only
- ✓ Clickable banners open external link or app page
- ✓ Ads respect user preferences (optional targeting based on location / interests)

➤ User Stories

- ✓ As a user, I want to see banner ads on Home screen so that I can learn about promotions or app campaigns.
- ✓ As a user, I want to click on an ad to open the relevant page.
- ✓ As an admin/business, I want to upload and schedule ads so that they appear for users on Home screen.

❖ Notifications

➤ Community Notifications

- ✓ Community creation: Followers of the creator receive notification.
- ✓ Join requests: Community admins receive notification when someone requests to join.
- ✓ Post reactions / comments: Users involved (post creator, mentioned users) receive notifications.

➤ Event Notifications

- ✓ Event creation: Community members receive notification if event is linked to community.
- ✓ Event participation: User receives reminder/notification for events they joined.
- ✓ Event join requests: Event creator receives notification when someone requests to join.

➤ Chat / Chatbot Notifications

- ✓ Chat messages: Users notified when new messages arrive.
- ✓ Chat requests: Recipient notified for pending requests.
- ✓ Chatbot messages: Users notified when business chatbot responds.

➤ Jobs & Favorites Notifications

- ✓ Job application status: Pending / Hired / Not Selected updates.
- ✓ Favorites: Updates on favorited jobs, businesses, or events.

➤ Geofencing Notifications

Technical Requirement Document

CCC Version 2.0

- ✓ Triggered when user is near a location matching search criterion (restaurants, cafes, events), only if Geofencing toggle is ON.

➤ User Stories

- ✓ As a user, I want to get notified when someone reacts or comments on my community post.
- ✓ As a community admin, I want to receive notifications for join requests.
- ✓ As a user, I want to get notifications when a community or event I'm interested in is created.
- ✓ As an event creator, I want to receive notifications when users request to join my event.
- ✓ As a user, I want notifications for chat messages, chat requests, and chatbot responses.
- ✓ As a user, I want to be reminded of events I joined
- ✓ As a user, I want geofencing notifications only if I enable it.

❖ My Profile & Settings

➤ Overview

- ✓ View and edit profile details
- ✓ Manage app settings and preferences
- ✓ Control notifications and privacy

➤ Profile Section

- ✓ View personal info: Name, Email, Phone, Profile Picture, Preferences
- ✓ Edit profile anytime
- ✓ View followers / following: User can see who is following them and who they are following

➤ Persona Tracking

- ✓ System tracks business clicks / interactions
- ✓ Backend creates a persona profile for each user based on most interacted businesses
- ✓ Persona is not shown in the app

➤ Settings Section

- ✓ Terms & Policies
 - Terms & Conditions: Read-only
 - Privacy Policy: Read-only
 - About App: App info and version

➤ Notifications Toggle

- ✓ Push notifications: ON / OFF

Technical Requirement Document

CCC Version 2.0

➤ **Blocked Users**

- ✓ View and manage blocked users
- ✓ Unblock if needed

➤ **Account Controls**

- ✓ Log Out
- ✓ Delete Account

➤ **User Stories**

- ✓ As a user, I want to view and edit my profile so that my information is up to date.
- ✓ As a user, I want to manage notifications via toggle so that I control alerts.
- ✓ As a user, I want to see Terms & Conditions, Privacy Policy, About App for transparency.
- ✓ As a user, I want to view blocked users and unblock if needed.
- ✓ As a user, I want to log out or delete my account for account control.
- ✓ As a user, I want to see my followers and following so that I can manage my connections.

Business Interface

Technical Requirement Document

CCC Version 2.0

❖ Authentication

➤ Sign Up (Business Registration)

- ✓ Email + Password
- ✓ Social Sign Up:
 - Google
 - Apple

➤ Email Sign Up Flow

- ✓ Business user clicks Sign Up
- ✓ Selects Sign Up with Email
 - Business Email
 - Password
 - Confirm Password
- ✓ System validates:
 - Valid email format
 - Password strength
- ✓ Account is created
- ✓ User proceeds to Business Profile Setup

➤ Social Sign Up

- ✓ Business user clicks Sign Up with Google
- ✓ Google authentication screen opens
- ✓ User selects Google account
- ✓ System fetches email from Google
- ✓ Business account is created
- ✓ User proceeds to Business Profile Setup

➤ Login

Technical Requirement Document

CCC Version 2.0

- ✓ Business user enters:
 - Email
 - Password
- ✓ System validates credentials
- ✓ On success user is logged into Business Dashboard
- ✓ Login Validation
- ✓ Incorrect email or password error message shown

➤ **Forgot Password**

- ✓ Business user clicks Forgot Password
- ✓ Enters registered email
- ✓ System sends reset link / OTP
- ✓ User creates a new password
- ✓ Password updated successfully

➤ **User Stories**

- ✓ As a business user, I want to sign up using email and password so that I can create a business account.
- ✓ As a business user, I want to sign up using Google so that registration is faster.
- ✓ As a business user, I want to log in securely so that I can manage my business profile.
- ✓ As a business user, I want to reset my password so that I can regain access if I forget it.

❖ **Claim Business Feature**

Technical Requirement Document

CCC Version 2.0

➤ Flow Claim Business

- ✓ User clicks on the “Claim Business” button.
- ✓ User searches for the business using:
 - Business Name
 - Location
 - Category
- ✓ If the business exists in the app:
 - User clicks Claim This Business.
- ✓ The Claim Business form opens, where the user:
 - Confirms business ownership
 - Uploads the required verification documents
- ✓ The claim request is submitted and sent to the Admin Panel.
- ✓ Admin reviews and verifies the submitted documents.
- ✓ If the claim is approved:
 - The business is linked to the user’s account.
 - Admin sends login credentials to the email used for the claim.
- ✓ If the claim is rejected:
 - The user receives an email stating that the business ownership could not be verified.

❖ Business Profile Creation

Technical Requirement Document

CCC Version 2.0

➤ Basic Profile Information

- ✓ Full Name
- ✓ Gender
- ✓ Date of Birth
- ✓ About Yourself (Optional)
- ✓ Profession
- ✓ Country US Only
- ✓ State
- ✓ City
- ✓ Email
- ✓ Phone Number

➤ Business Niche Selection

- ✓ Diverse-Owned Business (**selected in this flow**)
- ✓ Corporation
- ✓ Health
- ✓ Education

❖ Diverse-Owned Business Details

➤ Ownership & Identity

- ✓ Are you a business owner? (Yes / No)
- ✓ Business Logo (Upload)
- ✓ About Business
- ✓ Business Location (Address + Map)
- ✓ Business Type (Who owns this business – diversity classification)
- ✓ Business Category

➤ Verification & Documents

- ✓ Upload Diversity Certificate
- ✓ Upload Business Documents

➤ Online Presence

- ✓ Website link
- ✓ Social Media Links

➤ Business Purpose

Technical Requirement Document

CCC Version 2.0

- ✓ Mission Statement
- ✓ Affiliated Company (Optional)
- ✓ Related Company

➤ Business Preferences

- ✓ Social & Environmental
- ✓ Rights & Advocacy
- ✓ Cultural & Demographic
- ✓ Business
- ✓ Political
- ✓ Gun Control
- ✓ Fraternities / Groups
- ✓ Select Type (user-selected optional preference types)

These additional preferences contribute to profile completeness and deeper matching.

➤ ESG Data Information

- ✓ Businesses can provide ESG-related data for transparency and credibility.

➤ ESG Fields

- ✓ Reporting Year
- ✓ Total Carbon Emissions
- ✓ Waste Reduction (%)
- ✓ Energy Consumption
- ✓ Water Usage
- ✓ Board Diversity (%)

➤ User Stories

- ✓ As a business user, I want to select Fraternities / Groups so that my business aligns with relevant communities.

Technical Requirement Document

CCC Version 2.0

- ✓ As a business user, I want to choose Select Type preferences so that my profile is more accurate.

- ✓ Corporation Name
- ✓ Corporation Category
- ✓ Corporation Type
- ✓ Website URL
- ✓ Industry
- ✓ EIN (Employer Identification Number)
- ✓ Headquarters Address
- ✓ City
- ✓ State
- ✓ ZIP Code

➤ Business Niche Selection

- ✓ Diverse-Owned Business
- ✓ Corporation **(selected in this flow)**
- ✓ Health
- ✓ Education

➤ Commitment to Values Section

- ✓ User Inputs (Multi-Select):

Technical Requirement Document

CCC Version 2.0

- Social Responsibility
- Environmental Sustainability
- Minority-Owned Businesses
- Supplier Diversity
- Ethical Governance
- Community Empowerment
- Other (free text)

➤ **Additional Questions:**

- ✓ Do you have partners? (Yes / No)
- ✓ Answer: Impact of joining CCC (*text input*)

➤ **DEIB & ESG Visibility Consent**

- ✓ *Question:* Do you want to showcase your organization's DEIB / ESG initiatives?
 - Yes / No
- ✓ If YES:
 - Toggle: Allow your organization to appear in CCC
 - Upload Certification (optional but recommended)

➤ **Business Preferences Selection**

- ✓ Preference Categories:
 - Social & Environmental
 - Rights & Advocacy
 - Cultural & Demographic
 - Business
 - Political
 - Gun Control
 - Fraternities / Groups
 - Select Type (user-selected optional preference types)

➤ **ESG Data Information Module**

- ✓ ESG Data Fields:
 - Reporting Year
 - Total Carbon Emission

Technical Requirement Document

CCC Version 2.0

- Waste Reduction Percentage (%)
- Energy Consumption
- Water Usage
- Board Diversity Percentage (%)
- Compliance Status (Compliant / Non-Compliant / In Progress)

➤ User Stories

- ✓ As a corporation user, I want to upload my organization's basic details, so that my business profile is visible and searchable in the app.
- ✓ As a corporation, I want to define my commitment to DEIB, ESG, and social values, so that users understand what my organization stands for.

- ✓ Political
- ✓ Gun Control

Technical Requirement Document

CCC Version 2.0

- ✓ Fraternities / Groups
- ✓ Select Type (user-selected optional preference types)

➤ ESG Data Fields

- ✓ Reporting Year
- ✓ Total Carbon Emission
- ✓ Waste Reduction Percentage (%)
- ✓ Energy Consumption
- ✓ Water Usage
- ✓ Board Diversity Percentage (%)
- ✓ Compliance Status

➤ User Stories

- ✓ As a healthcare business, I want to upload my logo and business information, so that users can recognize my practice.
- ✓ As a healthcare business, I want to provide licenses and certifications, so that my practice is verified and trusted.
- ✓ As a healthcare business, I want to indicate minority or LGBTQ ownership, so that my practice is discoverable under DEIB filters.
- ✓ As a healthcare business, I want to submit ESG / sustainability data, so that my practice's environmental and ethical practices are transparent.
- ✓ As a healthcare business, I want to select my preferences (social, cultural, business, political, etc.), So that my practice is matched with relevant users.
- ✓ As a system, I want to validate all mandatory fields and document uploads, so that only complete and verified profiles are visible.
- ✓ As a healthcare business, I want to edit or update my profile anytime, so that my information remains current.
- ✓ As a system, I want to track profile completion and preferences selection, so that suggested users and connections are meaningful.

❖ Education Institute Profile Creation

➤ Basic Profile Information

- ✓ Full Name
- ✓ Gender

Technical Requirement Document
CCC Version 2.0

- ✓ Date of Birth
- ✓ About Yourself (Optional)
- ✓ Profession
- ✓ Country US Only
- ✓ State
- ✓ City
- ✓ Email
- ✓ Phone Number

➤ **Business Niche Selection**

- ✓ Diverse-Owned Business
- ✓ Corporation
- ✓ Health
- ✓ Education (**selected in this flow**)

➤ **Basic Institute Information**

- ✓ Institute Name
- ✓ Address
- ✓ City
- ✓ State
- ✓ ZIP Code
- ✓ Institute Type (e.g., School, College, University, Training Center)
- ✓ Website URL

➤ **Primary Contact Person:**

- ✓ Name
- ✓ Email
- ✓ Phone Number

➤ **Accreditation & Documentation**

- ✓ Upload Accreditation Certificate
- ✓ Accrediting Authority

➤ **DEIB Profile**

- ✓ Is your institution minority-led or historically minority-serving? (Yes / No)
- ✓ Do you actively support DEIB programs on campus? (Yes / No)

➤ **Document Uploads:**

- ✓ Upload any DEIB certification / supporting documents

Technical Requirement Document

CCC Version 2.0

- ✓ Board or faculty diversity percentage

➤ **ESG / Community Responsibility**

- ✓ Does your institution actively participate in ESG or community responsibility programs? (Yes / No)
- ✓ Upload supporting document if yes

➤ **Business Preferences Selection**

- ✓ Social & Environmental
- ✓ Rights & Advocacy
- ✓ Cultural & Demographic
- ✓ Business
- ✓ Political
- ✓ Gun Control
- ✓ Fraternities / Groups
- ✓ Select Type (user-selected optional preference types)

➤ **ESG Data Fields**

- ✓ Reporting Year
- ✓ Total Carbon Emission
- ✓ Waste Reduction Percentage (%)
- ✓ Energy Consumption
- ✓ Water Usage
- ✓ Board Diversity Percentage (%)
- ✓ Compliance Status

➤ **User Stories**

- ✓ As an educational institute, I want to upload basic institute information, so that users can find and recognize my institution.
- ✓ As an institute, I want to upload accreditation certificates, so that my profile is verified and trustworthy.
- ✓ As an institute, I want to indicate DEIB programs and minority-led status, so that users searching for inclusive institutions can find me.
- ✓ As an institute, I want to upload DEIB supporting documents, so that my commitment is visible to platform admins.

Technical Requirement Document

CCC Version 2.0

- ✓ As an institute, I want to provide ESG / community responsibility information, so that my social impact is transparent.
- ✓ As an institute, I want to select preferences (social, cultural, political, etc.), So that suggested users, businesses, and communities match accurately.
- ✓ As a system, I want to validate mandatory fields and document uploads, so that only complete and verified profiles are visible.
- ✓ As an institute, I want to edit my profile anytime, so that my information remains up-to-date.

❖ **My News Section**

➤ **News Categories**

- ✓ The system will show news related to:
 - Diversity
 - Education
 - Minority
 - Healthcare
- ✓ Only news from these categories will be displayed in the app.

➤ **News Source**

- ✓ News content is fetched from third-party news APIs.
- ✓ The app does not create or edit news content.
- ✓ News is refreshed automatically based on API updates.

➤ **Share News**

- ✓ Internal Share
 - Share news within the app (friends).
- ✓ External Share
 - Share via social apps (WhatsApp, Facebook, etc.).

➤ **User Stories:**

- ✓ As a business, I want to view news articles on my Home Screen so that I stay updated with trends.
- ✓ As a business, I want to like news articles so that I can save or show interest.
- ✓ As a business, I want to share news externally via social apps or copy link so that I can inform others.
- ✓ As a business, I want to open the full news article so that I can read complete information.

Technical Requirement Document

CCC Version 2.0

❖ Business Listings Section

➤ Business card contains:

- ✓ Logo
- ✓ Name
- ✓ Category (Diverse, Corporation, Healthcare, Education)
- ✓ Location (City, State)
- ✓ Match % (based on preferences)
- ✓ Blue tick if verified (app-registered)

➤ System Behavior:

- ✓ Businesses filtered based on:
 - Location (city/state)
 - Preferences selected
- ✓ Clicking card opens Business Profile View
- ✓ Can favorite other businesses (app-registered only)

➤ User Stories:

- ✓ As a business, I want to see other businesses on my Home Screen so that I can explore collaboration or market intelligence.
- ✓ As a business, I want to filter businesses by niche or location so that I can find relevant matches.
- ✓ As a business, I want to know which businesses are verified via blue tick so that I can trust profiles.
- ✓ As a business, I want to click on a business to view its profile so that I can see full information.
- ✓ As a business, I want to favorite other businesses so that I can quickly access them later.

❖ Favorites / Saved Section

➤ Behavior:

- ✓ Favorites tab available on Home Screen
- ✓ Displays app-registered businesses only
- ✓ Sorted by most recent or alphabetical
- ✓ Clicking opens Business Profile View

Technical Requirement Document

CCC Version 2.0

➤ User Stories:

- ✓ As a business, I want to view my favorite businesses from Home Screen so that I can track important contacts.
- ✓ As a business, I want to remove businesses from favorites if needed.

❖ Ads / Banner Section

➤ Behavior:

- ✓ Displayed either top of Home Screen
- ✓ Shows targeted ads based on:
 - Preferences
 - Location
 - Persona (click behavior in app)

➤ User Stories:

- ✓ As a business, I want to see relevant ads so that I can learn about opportunities.
- ✓ As a system, I want to deliver ads based on persona and preferences so that engagement is maximized.

❖ My Ads

➤ Sections:

- ✓ Active Ads: Currently live banners on the app
- ✓ Upcoming Ads: Ads scheduled for future dates
- ✓ For Approval: Ads waiting for admin approval
- ✓ Past Ads: Previously run / expired ads

➤ User Stories:

- ✓ As a business, I want to see all my ads organized by status (Active, Upcoming, For Approval, Past) so that I can track them easily.

➤ Create Ad

- ✓ Upload Ad Banner (image / video)
- ✓ Business Name
- ✓ Business Contact Info (email / phone)
- ✓ Business URL
- ✓ Calendar / Date Picker (select start and end date for ad)

Technical Requirement Document

CCC Version 2.0

➤ User Stories:

- ✓ As a business, I want to upload a banner and select dates so that my ad shows at the correct time.
- ✓ As a business, I want to see a preview of my ad before submitting so that I can confirm it looks correct.

➤ Submit for Approval

- ✓ After filling ad details, business clicks Submit / Book Ad
- ✓ Ad moves to For Approval section
- ✓ Admin receives notification with ad details for review

➤ User Stories:

- ✓ As a business, I want to submit an ad for approval so that it can appear on the app.
- ✓ As a business, I want to see my ad in "For Approval" until admin approves it.
- ✓ As a business, I want to know if my ad is approved or rejected so that I can act accordingly.
- ✓ As a business, I want to pay for the ad via Stripe after approval so that the ad can go live.

➤ Ad Approved (Accepted State)

- ✓ After Admin review, if the ad meets requirements, Admin clicks Approve
- ✓ Ad status changes from For Approval to Accepted
- ✓ Business receives notification of approval
- ✓ Ad moves to Accepted Section (waiting for payment)
- ✓ Business can proceed to Payment from Accepted section

➤ User Stories:

- ✓ As a business, I want to be notified when my ad is approved so that I can proceed with payment.
- ✓ As a business, I want my approved ad to move to an Accepted section so that I can clearly see its status.
- ✓ As a business, I want to make payment after my ad is accepted so that it can move to Active/Upcoming state

➤ Payment Flow

- ✓ Stripe integration for card payments
- ✓ Payment confirmation updates ad status to Active / Upcoming
- ✓ Receipts stored in backend

➤ User Stories:

Technical Requirement Document

CCC Version 2.0

- ✓ As a business, I want to pay for approved ads via card (Stripe) so that my ad goes live.
- ✓ As a business, I want to see a receipt or confirmation of payment for records.

❖ **My Jobs Module**

➤ **Module Overview**

- ✓ Post new jobs
- ✓ See all their jobs in My Jobs dashboard
- ✓ Track active and closed jobs
- ✓ Review applications and hire candidates

➤ **Jobs Visibility on Home Screen**

- ✓ A section Are You Hiring appears on Home Screen if business is hiring
- ✓ Button: Yes, I'm Hiring enables job creation

➤ **User Stories:**

- ✓ As a business, I want "We're Hiring" section to appear on my Home Screen only if I am hiring so that only active opportunities are visible.
- ✓ As a business, I want to Button my hiring status so that I control whether jobs are visible.

➤ **Create Job Posting**

- ✓ Fields / Inputs:
 - Job Title
 - Job Description
 - Position / Role
 - Qualification
 - Experience Required
 - Job Type (Full-time, Part-time, Internship, etc.)
 - Requirements
 - Specialization
 - Facilities & Benefits
 - Location (Address + Map)

➤ **System Behavior:**

- ✓ Validation for required fields
- ✓ Preview before posting
- ✓ Click Submit job added to My Jobs Active

➤ **User Stories:**

Technical Requirement Document

CCC Version 2.0

- ✓ As a business, I want to create a job posting with all required fields so that candidates know what I am hiring for.
- ✓ As a business, I want to preview the job before submission so that it appears correctly.

➤ **My Jobs Dashboard**

- ✓ My Posted Jobs: All jobs created by the business
- ✓ Active: Jobs currently open for applications
- ✓ Closed: Jobs that are closed / inactive

➤ **System Behavior:**

- ✓ Jobs sorted by most recent first
- ✓ Each job card shows:
 - Job Title
 - Status (Active / Closed)
 - Number of applications received
 - Click opens full job details

➤ **User Stories:**

- ✓ As a business, I want to see all my posted jobs in one dashboard so that I can manage them efficiently.
- ✓ As a business, I want to see active and closed jobs separately so that I know which are still hiring.

➤ **Job Details & Application Review**

- ✓ Clicking a job opens Job Details Page:
 - Job Title / Description
 - Position / Qualification / Experience / Job Type
 - Requirements / Specialization / Facilities
 - Location
 - List of applicants
- ✓ Applicant list:
 - Full Name
 - Email / Phone
 - CV / Cover Letter attachments
 - Application Status (Pending / Hired / Not Selected)

➤ **Actions:**

Technical Requirement Document

CCC Version 2.0

- ✓ Hire candidate updates application status to Hired
- ✓ Reject candidate updates status to Not Selected
- ✓ Close job moves job to Closed tab

➤ User Stories:

- ✓ As a business, I want to view detailed job information so that I know all requirements.
- ✓ As a business, I want to see all applications for a job so that I can review candidates.
- ✓ As a business, I want to view applicant CVs and cover letters so that I can assess qualifications.
- ✓ As a business, I want to hire or reject applicants directly from the job page so that the process is efficient.
- ✓ As a business, I want to close a job when the hiring process is over so that it moves to the Closed tab.

❖ Analytics Module

➤ Analytics Dashboard

- ✓ Profile visibility by gender
- ✓ Profile clicks by percentage & gender
- ✓ Ads analytics (clicks, views, impressions)
- ✓ Profile Insights: Visibility, clicks
- ✓ Ad Insights: Performance of ads

➤ User Stories:

- ✓ As a business, I want to see all analytics in one dashboard so that I can monitor engagement.
- ✓ As a business, I want to filter analytics by gender so that I can get meaningful insights.

➤ Profile Visibility Graphs

- ✓ Display total profile views over time (line graph)
- ✓ Filter by:
 - Gender (Male / Female / Other)
 - Location (City / State)

➤ User Stories:

- ✓ As a business, I want to see how many users have viewed my profile over time so that I can measure reach.
- ✓ As a business, I want to break down profile views by gender so that I understand my audience.

Technical Requirement Document

CCC Version 2.0

➤ Profile Clicks Graph

- ✓ Shows profile clicks as percentage of total views
- ✓ Gender-wise breakdown: Male / Female / Other
- ✓ Pie chart or bar chart representation

➤ User Stories:

- ✓ As a business, I want to see how many users clicked my profile from searches or listings so that I know engagement.
- ✓ As a business, I want to view clicks by gender so that I can understand audience preference.

➤ Ad Analytics

- ✓ Total impressions
- ✓ Total clicks
- ✓ Click-through rate (CTR)
- ✓ Views by date range
- ✓ Favorite / Saved counts

➤ User Stories:

- ✓ As a business, I want to see performance metrics of each ad so that I can evaluate.
- ✓ As a business, I want to filter ad analytics by date or location so that I can analyze performance in specific markets.

❖ Business Navbar

➤ Behavior / Description:

- ✓ Navbar dynamically shows the current business type (Diverse Owned, Corporation, Healthcare, Education) based on the business profile.
- ✓ Clicking the navbar item opens the business profile dashboard for that niche.
- ✓ From the dashboard, the business can:
 - View profile details
 - Edit profile information
 - Manage preferences, certifications, or ESG/DEIB data
 - Access ads, jobs, and analytics for that business

➤ Generic Statement:

For any registered business, the navbar displays the business type based on the selected niche. Clicking it opens the business's own profile dashboard with full management options. This applies to all niches (Diverse Owned, Corporation, Healthcare, Education)."

➤ User Stories

Technical Requirement Document

CCC Version 2.0

- ✓ As a business, I want the navbar to show my business type (based on my selected niche) so that I can quickly access my business dashboard.
- ✓ As a business, I want to click the navbar item to view my profile dashboard so that I can manage my business details.
- ✓ As a business, I want to edit my profile, preferences, or data from the dashboard so that my business information is always up-to-date.

❖ Notifications

- ✓ New user applies to a job Notification sent
- ✓ Application status changes
- ✓ Ad submitted for approval Notification sent
- ✓ Admin approves or rejects ad Notification sent
- ✓ Job Application

➤ User Stories

- ✓ As a business, I want to see all notifications in one place so I don't miss anything important.
- ✓ As a business, I want unread notifications highlighted so I know what is new.
- ✓ As a business, I want to click a notification to go to the related page so I can act quickly.
- ✓ As a business, I want to mark notifications as read so I can manage them efficiently.

❖ My Profile & Settings

➤ My Profile

- ✓ View profile details:
 - Profile picture / logo
 - Name
 - Email
 - Phone number
 - Business / Institute information (based on selected niche)

➤ Edit Profile

- ✓ User can edit profile details anytime
- ✓ Changes are saved in real time

Technical Requirement Document

CCC Version 2.0

➤ Settings

- ✓ Push Notifications Toggle
- ✓ Location Toggle
- ✓ Terms & Conditions
- ✓ Privacy Policy
- ✓ About App
- ✓ Logout
- ✓ Delete Account

➤ User Stories

- ✓ As a user, I want to view my profile details so that I can see my personal and business information in one place.
- ✓ As a user, I want to edit my profile information so that my details stay updated.
- ✓ As a user, I want to update my profile picture/logo so that my profile looks professional.
- ✓ As a user, I want my profile changes to be saved immediately so that I don't lose any updates.
- ✓ As a user, I want to enable push notifications so that I receive updates about activities, events, jobs, ads, and interactions.
- ✓ As a user, I want to disable push notifications so that I am not disturbed when I don't want alerts.
- ✓ As a user, I want to enable location access so that I can receive nearby business, event, and recommendation notifications.
- ✓ As a user, I want to disable location access so that my location is not used by the app.
- ✓ As a user, I want location-based features to respect my toggle settings so that my privacy is maintained.
- ✓ As a user, I want to view the Terms & Conditions so that I understand the app rules and usage policies.
- ✓ As a user, I want to read the Privacy Policy so that I know how my data is collected and used.
- ✓ As a user, I want to see information about the app so that I understand its purpose and features.
- ✓ As a user, I want to log out of my account so that my account stays secure when I'm not using the app.
- ✓ As a user, I want to delete my account so that I can permanently remove my data from the platform.
- ✓ As a user, I want to see a confirmation before deleting my account so that I don't delete it by mistake.

Admin Panel

Overview

Technical Requirement Document

CCC Version 2.0

The Admin Panel is a secure, web-based centralized management system that enables Super Admins and authorized administrators to monitor and control all platform operations, including users, businesses, claim requests, communities, events, content moderation, chat reports, advertisements, job postings, news categories, geofencing, notifications, matching engine configurations, and legal content updates. It features secure authentication with role-based access control and optional two-factor authentication to ensure data protection and restricted permissions. The dashboard provides real-time key metrics such as total users, business registrations, active jobs and ads, pending approvals, and reports, along with analytical insights like growth trends, engagement statistics, ad performance, and job application ratios. Administrators can review, approve, reject, suspend, warn, or ban entities as required, while all actions are systematically recorded in audit logs to ensure transparency, accountability, regulatory compliance, and overall platform integrity.

❖ Authentication

➤ Admin Login

- ✓ Email + Password login
- ✓ Two-factor authentication (optional)
- ✓ Role-based access control

❖ Admin Dashboard

➤ Key Metrics (Cards)

- ✓ Total Users (Active / Inactive)
- ✓ Total Businesses (Verified / Unverified)
- ✓ Pending Approvals (Claims, Ads, Communities)
- ✓ Active Jobs
- ✓ Active Ads
- ✓ Reports Count

➤ Graphs & Analytics

- ✓ Daily / Monthly new users
- ✓ Business registrations by category
- ✓ Ads impressions & clicks
- ✓ Job postings vs applications

➤ User Stories:

- ✓ As a Super Admin, I want to log in securely so that unauthorized access is prevented.
- ✓ As a Super Admin, I want to edit or revoke admin access so that security risks are minimized.
- ✓ As an Admin, I want to reset my password so that I can regain access if credentials are lost.

❖ Promo code management

➤ Admin Role

Technical Requirement Document

CCC Version 2.0

- ✓ The system shall allow Admin to create promo codes.
- ✓ Admin shall be able to:
 - Define Promo Code Name
 - Assign Promo Code to a specific Influencer
 - Activate / Deactivate promo code
- ✓ The system shall track:
 - Total number of sign-ups per promo code
- ✓ Admin shall be able to view analytics:
 - Promo Code
 - Influencer Name
 - Number of registered users via that code
- ✓ Promo codes shall not provide discounts or feature unlocks.

➤ User Stories

- ✓ As an Admin,
I want to create promo codes and assign them to specific influencers,
So that I can track user registrations generated by each influencer.
- ✓ As an Admin,
I want to activate or deactivate promo codes,
So that I can control which codes are valid for sign-up.
- ✓ As an Admin,
I want to see how many users signed up using each promo code,
So that I can measure influencer performance.
- ✓ As an Admin,
I want to view analytics including promo code name, influencer name, and number of registrations,
So that I can evaluate marketing results.

❖ User Management

➤ User Listing

- ✓ Name, Email, Location, Profile Status

Technical Requirement Document

CCC Version 2.0

- ✓ Profile Completion %
- ✓ Account Status: Active / Suspended / Deleted

➤ User Actions

- ✓ View full profile
- ✓ Suspend / Activate account
- ✓ Delete account (soft delete)

- ✓ View user activity logs

➤ Guest Users

- ✓ Track guest sessions
- ✓ Conversion rate (Guest Registered)

➤ User Stories:

- ✓ As an Admin, I want to view a list of all users so that I can manage platform participants.
- ✓ As an Admin, I want to search users by name, email, or ID so that I can find accounts quickly.
- ✓ As an Admin, I want to view detailed user profiles so that I can understand account activity.
- ✓ As an Admin, I want to suspend or block users so that policy violations are controlled.
- ✓ As an Admin, I want to activate suspended accounts so that resolved users can rejoin.
- ✓ As an Admin, I want to see user status (active, inactive, banned) so that account health is visible.
- ✓ As an Admin, I want to delete accounts with audit logs so that data integrity is maintained.

❖ Business Management

➤ Business Listings

- ✓ Filter by type:

Technical Requirement Document

CCC Version 2.0

- Diverse-Owned
- Corporation
- Healthcare
- Education

➤ Business Actions

- ✓ View full business profile
- ✓ Approve / Reject business verification
- ✓ Suspend business profile

➤ User Stories

- ✓ As an admin, I want to view all businesses in the system so that I can manage them efficiently.
- ✓ As an admin, I want to filter businesses by type (Diverse-Owned, Corporation, Healthcare, Education) so that I can quickly focus on a specific category.
- ✓ As an admin, I want to search businesses by name, location, or category so that I can locate any business easily.
- ✓ As an admin, I want to sort businesses by registration date, verification status, or activity so that I can prioritize actions.
- ✓ As an admin, I want to see key business info (name, category, verification status, owner, location) in the listings so that I can make informed decisions.
- ✓ As an admin, I want to click a business listing to view the full business profile so that I can review all details before acting.
- ✓ As an admin, I want to approve a business verification so that verified businesses can appear with a blue tick in the app.
- ✓ As an admin, I want to reject a business verification with reason so that businesses are informed of missing/incorrect documents.
- ✓ As an admin, I want to suspend a business profile temporarily so that non-compliant or fraudulent businesses cannot appear publicly.
- ✓ As an admin, I want to permanently delete a business profile if required so that the platform remains secure and compliant.
- ✓ As an admin, I want to trigger notifications to the business about approval, rejection, or suspension so that they stay informed.
- ✓ As an admin, I want to log all actions (approve/reject/suspend) in an audit trail so that we have accountability and record-keeping.
- ✓ As an admin, I want to flag suspicious businesses for further review so that fraudulent activities are minimized

❖ Claim Business Management

➤ Claim Requests Queue

- ✓ Business Name
- ✓ Claimed By (User)

Technical Requirement Document

CCC Version 2.0

- ✓ Submitted Documents
- ✓ Status: Pending / Approved / Rejected

➤ Admin Actions

- ✓ Review ownership documents
- ✓ Approve claim:
 - Link business to user
 - Trigger credentials email
- ✓ Reject claim:
 - Send rejection reason via email

➤ User Stories

- ✓ As an admin, I want to view all claim requests in a queue so that I can manage and process them efficiently.
- ✓ As an admin, I want to see business name, claimant (user), submitted documents, and status (Pending/Approved/Rejected) so that I have all information at a glance.
- ✓ As an admin, I want to filter claim requests by status (Pending, Approved, Rejected) so that I can prioritize processing.
- ✓ As an admin, I want to search claim requests by business name or user name so that I can locate specific claims quickly.
- ✓ As an admin, I want to sort claim requests by submission date so that older requests are handled first.
- ✓ As an admin, I want to review ownership documents uploaded by the user so that I can verify authenticity before approving.
- ✓ As an admin, I want to approve a claim request so that the business is linked to the user's account.
- ✓ As an admin, I want to trigger an automated credentials email to the user after claim approval so that they can access their business account.
- ✓ As an admin, I want to reject a claim request and send a reason via email so that the user knows why it was declined.
- ✓ As an admin, I want to log all claim request actions (approve/reject) for auditing purposes.
- ✓ As an admin, I want to attach internal notes to claim requests so that team members have context during review.
- ✓ As an admin, I want to flag suspicious claims for further investigation so that fraudulent claims are minimized.

❖ Community Management

➤ Community Listings

- ✓ Community Name
- ✓ Creator

Technical Requirement Document

CCC Version 2.0

- ✓ Privacy (Public / Private)
- ✓ Members Count
- ✓ Status: Active / Reported / Disabled

➤ Admin Actions

- ✓ View community details
- ✓ Disable / Delete community
- ✓ View reported posts

➤ User Stories

- ✓ As an admin, I want to view all communities in a listing so that I can monitor platform activity.
- ✓ As an admin, I want to see community name, creator, privacy setting (Public/Private), member count, and status (Active/Reported/Disabled) so that I have a complete overview.
- ✓ As an admin, I want to filter communities by privacy, status, or creator so that I can find specific communities easily.
- ✓ As an admin, I want to sort communities by creation date or member count so that I can prioritize active or popular communities.
- ✓ As an admin, I want to view full community details (posts, members, events, rules) so that I can assess the community properly.
- ✓ As an admin, I want to disable a community temporarily so that inappropriate activity can be halted without deletion.
- ✓ As an admin, I want to delete a community permanently so that harmful or spammy communities are removed from the platform.
- ✓ As an admin, I want to view reported posts within a community so that I can take moderation action.
- ✓ As an admin, I want to review member activity and remove offending members if necessary so that community standards are maintained.
- ✓ As an admin, I want to log all actions (disable/delete posts, remove members) for audit and accountability purposes.
- ✓ As an admin, I want to flag communities for follow-up or investigation so that repeated issues are tracked.

❖ Community Events Overview

➤ Event Listings

- ✓ Admin can view:
 - Event Name, Picture, Description, Location, Charges, Date & Time, Privacy, URL

Technical Requirement Document

CCC Version 2.0

➤ Participation & Favorites

- ✓ Who is attending (Going / Maybe)
- ✓ Total number of attendees
- ✓ Users who have favorited the event

➤ User Stories

- ✓ As an admin, I want to view all community events so that I can monitor event details.
- ✓ As an admin, I want to see event information (Name, Picture, Description, Location, Charges, Date & Time, Privacy, URL) so that I have full context for each event.
- ✓ As an admin, I want to see which users are attending an event (Going / Maybe) so that I can track participation.
- ✓ As an admin, I want to view the total number of attendees for each event so that I can assess event popularity.
- ✓ As an admin, I want to know which users have favorited the event so that I can understand user engagement.

❖ Posts & Content Moderation

➤ Posts Management

- ✓ View all posts (community & app-wide)
- ✓ Filter by:
 - Reported
 - Most flagged

➤ Admin Actions

- ✓ View post content
- ✓ Delete post
- ✓ Warn user
- ✓ Suspend posting privileges

➤ User Stories

- ✓ As an admin, I want to view all posts across communities and app-wide so that I can monitor content on the platform.
- ✓ As an admin, I want to filter posts by Reported so that I can quickly focus on problematic content.
- ✓ As an admin, I want to search posts by keywords, author, or community so that I can locate specific content.

Technical Requirement Document

CCC Version 2.0

- ✓ As an admin, I want to sort posts by creation date, number of flags, or engagement so that I can manage high-priority content efficiently.
- ✓ As an admin, I want to view full post content including images, videos, and text so that I can assess the post accurately.
- ✓ As an admin, I want to delete a post so that harmful, offensive, or spam content is removed from the platform.
- ✓ As an admin, I want to warn the user who posted inappropriate content so that they are informed of policy violations.
- ✓ As an admin, I want to suspend posting privileges for users repeatedly violating rules so that platform standards are enforced.
- ✓ As an admin, I want to log all moderation actions (delete, warn, suspend) for accountability and auditing purposes.
- ✓ As an admin, I want to generate reports of most flagged users and posts so that I can detect patterns of abuse or spam.

❖ Chat & Reports Management

➤ Chat Reports

- ✓ Reporter
- ✓ Reported User
- ✓ Chat ID
- ✓ Reason

➤ Admin Actions

- ✓ Review chat logs (read-only)
- ✓ Take action:
 - Warn
 - Temporary block
 - Permanent ban

➤ User Stories

- ✓ As an admin, I want to see who reported a chat and who is reported so that I can understand the context of complaints.
- ✓ As an admin, I want to view Chat ID and reason for the report so that I can locate and review the exact conversation.
- ✓ As an admin, I want to review chat logs (read-only) so that I can assess violations without altering the conversation.

Technical Requirement Document

CCC Version 2.0

- ✓ As an admin, I want to warn a user for inappropriate messages so that they are informed of rules violations.
- ✓ As an admin, I want to temporarily block a user from chatting so that repeated offenses are controlled.
- ✓ As an admin, I want to permanently ban a user if violations are severe or repeated so that platform safety is maintained.
- ✓ As an admin, I want to log all moderation actions (warn, block, ban) for accountability and auditing purposes.

❖ Ads Management

➤ Ads Dashboard

- ✓ Active Ads
- ✓ Upcoming Ads
- ✓ For Approval
- ✓ Rejected Ads

➤ Ad Review

- ✓ Banner preview
- ✓ Business details
- ✓ Scheduled dates

➤ Admin Actions

- ✓ Approve / Reject ads
- ✓ Send rejection reason
- ✓ Monitor ad performance

➤ User Stories

- ✓ As an admin, I want to view active, upcoming, for approval, and rejected **ads** so that I can manage ad statuses efficiently.
- ✓ As an admin, I want to see basic ad details like banner preview, business name, and scheduled dates so that I can make informed decisions.

Technical Requirement Document

CCC Version 2.0

- ✓ As an admin, I want to approve or reject ads so that only appropriate ads are displayed on the platform.
- ✓ As an admin, I want to send rejection reasons to businesses so that they are aware why their ad was not approved.
- ✓ As an admin, I want to monitor ad performance (impressions, clicks, engagement) so that I can track the effectiveness of ads.
- ✓ As an admin, I want to filter ads by status or date to quickly find specific ads for review.
- ✓ As an admin, I want to log all approval/rejection actions for accountability and auditing purposes.

❖ Job Management

➤ Job Listings

- ✓ Business Name
- ✓ Job Title
- ✓ Status: Active / Closed
- ✓ Applications Count

➤ Admin Actions

- ✓ View job details
- ✓ Suspend hiring privilege of business

➤ User Stories

- ✓ As an admin, I want to view all job listings with business name, job title, status, and application count so that I can monitor jobs on the platform.
- ✓ As an admin, I want to filter jobs by status (Active / Closed) to quickly find relevant listings.
- ✓ As an admin, I want to view full job details so that I can review the listing and applications if needed.
- ✓ As an admin, I want to suspend a business's hiring privileges so that businesses violating policies cannot post new jobs.
- ✓ As an admin, I want to log all suspension actions for accountability and auditing purposes.

❖ News Management

➤ News Control

- ✓ View fetched news (read-only)
- ✓ Enable / Disable category

➤ User Stories

Technical Requirement Document

CCC Version 2.0

- ✓ As an admin, I want to view all fetched news in a read-only format so that I can monitor content without altering source data.
- ✓ As an admin, I want to enable or disable news categories so that inappropriate or irrelevant content categories can be restricted on the platform.
- ✓ As an admin, I want to log category changes for auditing and accountability purposes.

❖ Preferences & Matching Engine

➤ Preferences Configuration

- ✓ Enable / Disable preference categories
- ✓ Weightage configuration for match %

➤ Matching Rules

- ✓ Minimum match threshold (default 30%)
- ✓ Profile completion dependency

➤ User Stories

- ✓ As an admin, I want to enable or disable preference categories so that only relevant user preferences are considered in matching.
- ✓ As an admin, I want to configure weightage for each preference category so that the match percentage accurately reflects business priorities.
- ✓ As an admin, I want to set a minimum match threshold (default 30%) so that only sufficiently compatible profiles are recommended.
- ✓ As an admin, I want to enforce profile completion dependency so that incomplete profiles are not included in the matching process.
- ✓ As an admin, I want to log all changes in preferences and matching rules for auditing and tracking purposes.

❖ Geofencing Management

- Enable / Disable geofencing globally
- Manage notification radius defaults
- View geofence-trigger logs

➤ User Stories

- ✓ As an admin, I want to enable or disable geofencing globally so that the feature can be controlled across the platform.

Technical Requirement Document

CCC Version 2.0

- ✓ As an admin, I want to set and manage default notification radius so that location-based alerts are consistent for users.
- ✓ As an admin, I want to view geofence-trigger logs so that I can monitor user interactions with geofenced areas.
- ✓ As an admin, I want to track all changes to geofencing settings for auditing purposes.

❖ Notifications Management

- View notification logs
- Retry failed notifications
- Send manual announcements

➤ User Stories

- ✓ As an admin, I want to view all notification logs so that I can track sent, failed, and pending notifications.
- ✓ As an admin, I want to retry failed notifications so that important messages reach users reliably.
- ✓ As an admin, I want to send manual announcements so that I can broadcast urgent or important updates to all or selected users.

❖ Reports & Abuse Handling

➤ Report Types

- ✓ User report
- ✓ Post report
- ✓ Community report
- ✓ Business report

➤ Admin Actions

- ✓ Review evidence
- ✓ Take action

➤ User Stories

- ✓ As an admin, I want to view all user, post, community, and business reports so that I can monitor platform integrity.
- ✓ As an admin, I want to review evidence attached to reports so that I can make informed decisions.
- ✓ As an admin, I want to take action on reports (warn, suspend, ban, or delete content) so that abuse is properly managed.

Technical Requirement Document

CCC Version 2.0

❖ **System Settings**

- Terms & Conditions (CMS)
- Privacy Policy (CMS)
- App version info

➤ **User Stories**

- ✓ As an admin, I want to update Terms & Conditions via so that users always see the latest policies.
- ✓ As an admin, I want to update Privacy Policy so that legal compliance is maintained.
- ✓ As an admin, I want to view current app version info so that I can track updates and releases.
